

Tru-Core® I Biopsy Needles

High quality core biopsy needles provide histological information for diagnosis and characterization of suspect lesions.

- A 19 mm sample notch ensures sufficient tissue for clinical diagnosis.
- Unique, patented hub design obsoletes needle “spacers”.
- Numerically ordered centimetre markings facilitate precise depth placement.
- Each needle has an echogenic tip for accurate placement under ultrasound guidance.
- Hubs are colour coded for easy gauge size determination.
- Can be used with co-axial introducer needles.
